

Saving water: How and how much

SAVES

9 LITRES

A PERSON PER DAY

- Cut shower time by one minute
- Brush teeth using a tumbler and not under a running tap
- Wash clothes on a full load rather than a half load
- Wash dishes or vegetables in a filled basin rather than under a running tap

SAVES

30 LITRES

A WASH

- Reuse rinse water from the washing machine for flushing the toilet or mopping the floor
- Keep car washing to a minimum; use a bucket, not a running hose

BREAKDOWN OF WATER USAGE BY ACTIVITY IN A TYPICAL HOUSEHOLD:

29%
SHOWER

22%
KITCHEN

19%
LAUNDRY

16%
FLUSHING TOILET

10%
SINK

4% OTHERS

Households in Singapore account for nearly **60%** of potable water consumption
