

Next-generation fast response car

AUTOMATED NUMBER PLATE RECOGNITION SYSTEM

Detects vehicles of interest on the move, without officers having to divert their attention from other ongoing tasks.

IN-VEHICLE VIDEO RECORDING SYSTEM

Provides live streaming of high-resolution video footage to the Police Operations Command Centre for making better sense of surroundings and incident management.

INTEGRATED VEHICULAR DASHBOARD

Provides officers seamless use and control of all the technological functions in the car.

RADIO-FREQUENCY IDENTIFICATION TECHNOLOGY IN THE VEHICLE BOOT

Enables officers to track equipment within the vehicle, streamlining work processes.
